

Fusedrawer for Fuse Links 5x20 mm resp. 6.3x32 mm

Fuse tray for fuse links  
(Fuse links not enclosed)

See below:

[Approvals and Compliances](#)

### Description

- Component :  
Extra-Safe
- 1 Function :  
Fuseholder for Fuse-links 5x20 mm or 6.3x32 mm
- Approved together with power entry module

### Characteristics

- The fuseholder is accessible from the equipment front
- Suitable for use in equipment according to IEC/UL 62368-1

### References

Fits to type: [CE](#); [CG](#); [CG-Bowdencable](#); [KE](#); [KG](#); [KG-Bowdencable](#)

## Approvals and Compliances

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in [Details about Approvals](#)

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

## Application standards

Application standards where the product can be used

| Organization                                                                        | Design                         | Standard       | Description                                                                                                                                                                                                                  |
|-------------------------------------------------------------------------------------|--------------------------------|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Suitable for applications acc. | IEC/UL 62368-1 | Audio/video, information and communication technology equipment - Part 1: Safety requirements                                                                                                                                |
|  | Suitable for applications acc. | IEC 60601-1    | Medical electrical equipment - Part 1: General requirements for basic safety and essential performance                                                                                                                       |
|  | Suitable for applications acc. | IEC 60335-1    | Safety of electrical appliances for household and similar purposes. Meets the requirements for appliances in unattended use. This includes the enhanced requirements of glow wire tests acc. to IEC 60695-2-11 or -12 & -13. |

## Compliances

The product complies with following Guide Lines

| Identification                                                                      | Details                                    | Initiator   | Description                                                                                                                                                             |
